

MEI-LING CHEN

DEPARTMENT HEAD & PROFESSOR

EDUCATION

PhD University of Maryland at Baltimore (1997)

MS University of California, San Francisco, (1986)

BS National Taiwan University (1982)

CONTACT INFORMATION

TEL : 03-2118800 ext. 5737

E-mail : mechenl@mail.cgu.edu.tw

RESEARCH INTEREST

Symptom management in cancer patients

Patient-reported outcome measurement

TEACHING COURSES

- Master program-Nursing
Advance Medical-Surgical Nursing I & II, Advance
Medical-Surgical Nursing Practicum I & II, Quantitative
Nursing Research
- Doctoral program-Nursing
Measurement: Theory and Application
- Master program-Medical education
Research Methodology

AWARDS

- 2001 Research Award of National Science Council,
Taiwan
- 2000 Research Award of National Science Council,
Taiwan
- 1999 Research Award of National Science Council,
Taiwan
- 1998 Research Award of National Science Council,
Taiwan

FUNDED RESEARCH PROJECTS

- Applying the ecological momentary assessment (EMA) method to examine the temporal relationship between cancer-related fatigue and physical activity in breast cancer survivors (2021-2024) (Ministry of Science and Technology, MOST)
- Routine use of patient-reported outcome measures (PROMs) in oncology practice: Developing an electronic PROMs system and evaluating the effects of its routine use (2018-2022)(MOST)
- Patterns of symptom trajectory in patients with late stage NSCLC: A comparison between never smokers and ever smokers (2016-2020)(MOST)
- Applying a computer-assisted measurement system to investigate change patterns of quality of life and symptoms in HCC patients receiving radiotherapy (2014-2018)(MOST)
- Quality of cancer pain management in terminal cancer patients: Comparison between hospice and non-hospice care (2012-2014)(Chang Gung Medical Research Project, CMRP)
- Hot flash, sleep disturbance and adherence to hormonal therapy in breast cancer women (2012-2015)(MOST)
- Assessing cognitive function of breast cancer women using the High Sensitivity Cognitive Screen (HSCS): A feasibility and psychometric study (2010-2013)(National Science Council, NSC)
- Use of and attitude held towards complementary and alternative medicine by cancer patients and oncology health professionals in Taiwan (2009-2010)(CMRP)
- The effect of a home-based exercise program on sleep and related symptoms in breast cancer women (2008-2011)(NSC)
- Arm morbidity and lymphedema in women treated for breast cancer: Incidence, risk factor and impact.(2007-2008)(NSC)

- Self-Management in COPD Patients : Instrument Development (2006-2008)(CMRP)
- Insomnia in Lung Cancer Patients: Prevalence, Characteristics, and Impact on Survival Time (2005-2008)(NSC)
- Prevalence, Time Course, Impact and Risk Factors of Symptoms After Breast Cancer Surgery—An International Collaboration Study (2005-2007)(NSC)
- Development and evaluation of a depression-reducing intervention for cancer patients: A prospective randomized clinical trial (Phase II) (2003-2005)(NSC)
- Development and evaluation of a depression-reducing intervention for cancer patients: A prospective randomized clinical trial (Phase I) (2002-2003) (NSC)
- The caregiving experience and its effects on health among family caregivers of cancer patients: A longitudinal study (2001-2003) (CMRP)
- Relationship between cancer pain and depression: A meta-analysis (2000-2001) (NSC)
- The Development and Testing of Cancer Caregiver's Need Q-sort Scale (1999-2000) (CMRP)
- The Impact of depression on health outcomes among cancer patients: A Prospective study (1999-2003) (NSC)
- Prevalence and predicting factors of depression in cancer patients (1998) (NSC)
- A causal model of depression in cancer patients with pain (1997-1999) (NSC)
