RESEARCH DIRECTION

Psychiatric and Mental Health nursing, Family Nursing, Psycho-oncology, Stress Coping and Needs, Quality of Life, Patient-reported outcome measurement.

TEACHING SUBJECTS

Psychiatric and Mental Health Nursing and Clinical Practice, Mental Health, Theory and Practice in Counseling, Principles and Strategies in Teaching, Ethics in Nursing, Medical Humanities and Clinical Ethics, Fundamental Nursing and Nursing Laboratory

RESEARCH/GRANT

Comparing of differences and changing trends in fear of cancer recurrence, anxiety and depression, sleep, and quality of life of Head and Neck Cancer patients receiving photon or proton radiation therapy and of their family caregivers, and testing the effectiveness of stress adaptation intervention: a dyadic study (2019-2020, Ministry of Science and Technology, MOST)

Antecedents and Mediators of Physical Activity in Relation to Quality of Life in Women with Early-Stage Endometrial Cancer: Following the

Circuit Training Program to Health (Co-PI, 2016-2018, Ministry of Science and Technology, MOST)

Effect of a Survivorship Care Plan on Resilience in a Multicultural Population of Female Primary Caregivers of Patients with Advanced Oral Cavity Cancer: Trajectory, Intervention Model and Longitudinal Effects (the second and third years) (Co-PI, 2016-2018, Ministry of Science and Technology, MOST)

Factors associated with long term use of Benzodiazepines and effects of interventions on decreasing BZD long term use among patients suffering from Depression or Anxiety (Co-PI, 2015-2017, Ministry of Science and Technology, MOST)

Prevalence and Predictors of Sleep Difficulty and Fatigue in Taiwanese Women with Endometrial Cancer: A Prospective Follow-Up Study from Diagnosis into the Year after Treatment (Co-PI, 2015-2016, Ministry of Science and Technology, MOST)

Effect of a Survivorship Care Plan on Resilience in a Multicultural Population of Female Primary Caregivers of Patients with Advanced Oral Cavity Cancer: Trajectory, Intervention Model and Longitudinal Effects (Co-PI, 2015-2016, Ministry of Science and Technology, MOST)

A family-centered randomized clinical trial of case management for dementia caregivers (Co-PI, 2012-2013, Ministry of Science and Technology, MOST)

Develop and Test the ' Multi-Faced Continuous Exercise Program' in Operable Oral Cavity Cancer Patients (Co-PI, 2011-2014, Ministry of Science and Technology, MOST)

Quality of a family-centered care and its associated factors: The exploration of psychiatric nurses, patients, and their families (Co-PI, 2011-2013, Ministry of Science and Technology, MOST)

Testing psychometric character of Traditional Chinese Version of Fear of Cancer Recurrence Inventory-Patient Version (FCRI-PV) and Caregiver Version (FCRI-CV) and Exploration of affecting factors related to FCR (2013-2014, Chang-Gung Memorial Research Project, CMRP)

To construct the transfer model between two instruments about FACT-G/H&N and EORTC-QLQ/ H&N (2010-2011, Chang-Gung Memorial Research Project, CMRP)

The illness stress and coping process of head and neck cancer patients and families. (Co-PI, 2007-2011, Chang-Gung Memorial Research Project, CMRP)

- Coping mechanisms of parents of children recently diagnosed with autism in Taiwan (Co-PI, 2003-2004, Chang-Gung Memorial Research Project, CMRP)
