RESEARCH AREA

Mental Health Nursing, Family Health

TEACHING SUBJECT

- Psychiatric Nursing
- Psychiatric Nursing Practice
- Advanced Mental Health Nursing
- Advanced Mental Health Nursing Practicum
- Introduction to Nursing Research
- Nursing Research

AWARD

- 2022 2021 World's Top 2% Scientists. Stanford University team
- 2021 2020 World's Top 2% Scientists. Stanford University team

RESEARCH PROJECT

- Dyadic relationships among mental health literacy, self-stigma, attitudes towards help-seeking, and health-related quality of life in patients with schizophrenia and their primary family caregivers: A longitudinal study (Ministry of Science and Technology, 2021-2024)
- The effectiveness of a family nursing education and training on mental health nursing professional and clinical outcomes (Ministry of Science and Technology, 2018-2021)
- Quality of life and family functioning in individuals with schizophrenia and primary family caregivers: A longitudinal study (Ministry of Science and Technology, 2016-2017)
- Correlates of caregiver burden and quality of life and the effectiveness of a brief family therapeutic communication intervention (BFTCI) for patients with schizophrenia and their primary family caregivers (Ministry of Science and Technology, 2014-2016)

- Family caregiving is an interactive process: Quality of life and its associated factors of individuals with schizophrenia and their primary family caregivers (National Science Council, 2013-2014)
- Quality of family-centered care and its associated factors: The exploration of psychiatric nurses, patients, and their families (National Science Council, 2011-2013)
- Positive and Negative Caregiving Experiences of Individual Family Caregivers and the Family Units Living with Schizophrenia (National Science Council, 2010-2011)
